

Jon Pugh

Brooklyn NY & Andover VT [linkedin.com/in/jonpugh](https://www.linkedin.com/in/jonpugh) drupal.org/user/17028 jonpugh@live.com

Creative software engineer with a focus on tools for more efficient development, (semi-)retiring from Drupal for Symfony, Chef, Vagrant, Jekyll, Jenkins, and whatever the future may bring.

Actively working with HTML since 1997, CSS & Javascript since 1999, PHP/MySQL since 2000, exclusively using Drupal since 2004. Broad & deep understanding of all web technologies, front-end and back.

Open Source Projects

DEVSHOP

drupal.org/project/devshop

An open source version of a Drupal dev cloud service. Git powered dev-ops workflow tools, with front and back end interfaces, multiple environments per project, and additional tools to assist developers.

HUBDROP.IO

hubdrop.io

Mirrors drupal.org git repos on GitHub.com, using Symfony, Chef, & Jenkins.

DRUPAL CONTRIBUTIONS

- Two Drupal 8.x core commit credits.
- Many strange contrib modules, such as [Features Orphans](#) and [Helpful.module](#).
- See [drupal.org profile page](https://drupal.org/profile/page) for a full list of contributions.

Work Experience

THINKDROP CONSULTING

Founder & CEO

January 2010 - Present

Launched and manages a successful boutique Drupal consultancy. Clients include Harvard Medical School, Institute for Integrative Nutrition, Sony Music, Lullabot, New Amsterdam Ideas, and numerous start-ups.

DRUPAL CONNECT

CTO

June 2009 - January 2010

Managed entire consulting services branch of Drupal Staffing. Major projects included blogher.com and pbs.com/thisemotionallife.

FREELANCE

2004 - 2009

Major projects include ARIS (NYC Department of Education, Wireless Generation, WorkHabit), RaceForTheOceans.org (Oceana), and Sony Music artist websites.

TRELLON

Lead Developer

October 2006 - September 2007

Lead development, assisted and trained junior developers on Drupal 4.7 and 5.0 projects. Major projects included Oceana, Rainforest Action Network, Blue Planet Run, the Columbia Spectator, The Red Cross, 247TownHall, and EndOil.org.

Volunteer Experience

MACILE/THINKDROP PILOT PROGRAM

Itabo, Dominican Republic

July 2010

macile.org

Created and executed a week-long curriculum teaching the MACILE classes (age 12-17) about the internet, web pages, and web site creation. Over 5 days, for 2 hours a day, we were able to teach the basics of web site layout and organization, and create a class website using Drupal Gardens.

Formal Education

UNIVERSITY OF FLORIDA

School of Fine Arts, Gainesville, Florida | 1999-2003

Studies in Digital Arts and Sciences
